

EAGLE-- Diamond Blade for Tile

Diameter	105mm
Aperture	20mm
Tooth Thickness	1.1mm
Tooth Height	10mm

Scope of Application:

Suitable for high-hardness polished tiles, full-body tiles, sintered stone, microcrystalline tiles, and various types of ceramics.

Product Features:

Smooth cutting, soft handling, fast speed, no chipping, long lifespan. It uses a special steel base, allowing continuous cutting without deformation or tooth burning.
